

## Equipment Needed To Start Your Lawn Mowing Business

### Equipment and Supplies

You'll need a lawn mower to get started, of course, but it doesn't have to be top of the line.

You can start with just a standard push mower. However, you'll be able to mow lawns faster – and thus do more per day – if you have a riding mower. Purchase this as soon as you have enough money.

You'll also need other lawn care supplies, such as a weed trimmer and grass seed and fertilizer.

#### Required Equipment and Materials

Most lawn care owners will need the following equipment to get started:

- ❖ Truck or use your existing vehicle
- ❖ Equipment Trailer
- ❖ Riding Mower
- ❖ Push Mower
- ❖ Trimmer
